

RACI SA Branch Teacher Workshop 2026

- Date:** Thursday 3rd December 2026.
- Location:** Flinders University
College of Science and Engineering
Bedford Park SA
- Room:** PHYS 001 (off Anchor Court)
(parking in P9 is most convenient as parking machine is located there)
- Time:** *arriving from 8.45am*
9:00am- 3.00pm
- Cost:** \$85 (RACI member), \$125 (non-member)

Registrations are now open via the [LINK](#)
(Or via the QR code)

NOTE: attendees will have to “sign-up” (NOT become members) & **fill in all fields** (even if the asterisk is not there)

Hear from award-winning chemists Dr Sara Miller and Dr Philip Norcott as they deliver **two keynote presentations** exploring Raman spectroscopy and the exciting applications of portable magnetic resonance technology. The day will also feature **three different practical session rotations** led by experienced Chemistry teachers and academics, providing opportunities to investigate a range of practical activities, explore innovative experimental designs and discover fresh ideas to take straight back to the classroom. Sessions will include investigating reaction kinetics, exploring colour chemistry in design practicals, and using spectroscopy. The day will conclude with a dedicated **workshop** led by an experienced Chemistry teacher, focusing on SACE Stage 2 Chemistry folio work and offering valuable insights, strategies and practical ideas to support students in developing high-quality folios. To finish the day, join us for ‘**happy hour**’ at the Tavern from 3:30 pm to build connections with colleagues from across the Chemistry teaching community.

Whether you’re looking for fresh practical ideas, inspiration for student investigations, or the chance to connect and share experiences with colleagues, this workshop offers something for every Chemistry teacher.

Please bring:

- Your laptop or iPad
- Your lab coat and safety glasses
- Closed-in shoes (required for entry to the laboratories)
